Mind & Soul
EXPLORING CHRISTIANITY AND MENTAL HEALTH

Scottish Conference 2012

HEAD ROOM

Future Proofing Your Mind

We often look to the past for answers to problems, especially when it's about our emotions. But more answers lie in the future. This is where the challenges lie. This is where hope is to be found.

Mind & Soul have teamed up with Scottish Churches and Charities to offer you this one-day conference on emotional health. It will equip, encourage, and empower the church to engage with mental health problems in the place that needs it most – the local community. The style will be hands on and practical, helping you get help when you need it.

Sessions will look at managing 21st century challenges, staying emotionally healthy and working in partnership with the NHS and local government; and will be delivered by recognised experts from counselling and health backgrounds. There will be a market place of exhibition stands as well as supporting electronic resources and time for networking and conversation.
